From the time of its discovery by the Coronado Expedition from Mexico in search of the Seven Cities of Cibola, is but a brief period, said Dr. Bryant, when compared with the story of its rocks and the geologic ages dating back billions of years, through which it was formed.

Next Tuesday's luncheon speaker will be Don Neilly, expert dog fancier, who will speak on the subject of "Going to the Dogs." The chairman of the day will be Len Pecchenino. The speaker will bring to the luncheon a pair of rare dogs, and other rare animals and will illustrate his talk with a film.

## ATTORNEY FOLEY RULES SCHOOL TAX FUND VALID

A ruling of City Attorney Robert Foley at Monday night's regular meeting of the Albany City Council apparently set at rest the much-disputed question as to the legality of a 35-cent levy for school purposes collected by the City.

The special 35-cent levy had been in question since a similar tax in Berkeley had been ruled invalid as a result of the insertion a few years ago of a clause in the city charter. Foley ruled that the wording of the Albany charter followed the text of the Berkeley charter as it had read previous to the change, and cited several decisions upholding his opinion. The earlier Berkeley charter reading had been upheld by the courts.

As a result of Foley's ruling the Council ordered the check for some \$20,700 which had been held up pending a legal decision prepared for payment and final approval at next Monday's council meeting. This check will be the final payment to the Albany Unified School District for the 1954-55 fiscal year.

The appointment of Herman B. Vandenberg, of 447 Talbot Ave., to the Planning and Zoning Commission, was announced by Councilman Donahue. Vandenberg is president of the Albany Exchange Club and past president of the Chamber of Commerce. He is a son-in-law of Ernest C. Blow, now of Columbia, Calif., who served 17 years on the Planning and Zoning Commission, and two years on the Albany City Council.

The much discussed and often postponed re-adjustment of bus stop arrangements at the Solano-San Pablo Ave. intersection was again postponed Monday night in view of the Key System, request for more curb room on the west side of San Pablo, which would eliminate additional parking space and encroach on the frontage of the East Bay Chevrolet Company. Both the Mayor and Councilman Donahue expressed themselves as against giving up any more space for loading than had been allotted in the original engineering plan, and declared they still believed one suggested route around the block for the "G" bus, and re-entry from Buchanan into San Pablo the logical solution.

Mrs. Zahn declared they would never be able to accomplish their purpose, and that the "tight" schedule maintained would be impossible if the time taken to make a "Cook's Tour" around the block were added to the running time. It was admitted that the present turning south into San Pablo is illegal, due to the fact the buses have to turn left across traffic from their loading zone on the north side of Solano Ave.

Howard B. Carter, city engineer, filed a recommendation for adoption of an ordinance delegating authority to the Building Department to assign street numbers to buildings or houses, and to correct any errors in such numbering that may have occurred. This was approved by the Council and City Attorney Foley was instructed to draw up an ordinance as outlined.

Insurance bills were presented for premiums, due as of July 1, covering "False Arrest" and "Loss by Fire," and were held over one week for checking.

Report of the City Engineer on condition of north building of the Recreation Center and which would call for the expenditure of several hundred dollars, was ordered held over for discussion during the next budget session.

Request of Recreation for the Blind for a permit to solicit funds in the City of Albany, was passed on motion of Mrs. Zahn, seconded by Councilman Combs, with the proviso that it be cleared with the Chief of Police.

Move to paint the crosswalks at school locations yellow, to conform to State law, was approved on motion of Mrs. Zahn, seconded by Councilman Combs, and the City Attorney was instructed to draw up a resolution to cover.

A request for the loan of a city street sweeper and operator by Golden Gate Fields race track, was approved on motion of Mrs. Zahn, seconded by Councilman Blank, with the proviso that the city be compensated on the basis of the rate per hour established by City Engineer Howard B. Carter.

Designation of a 35-foot loading zone (yellow) between 817 and 825 Adams St., at the rear of Co-rey's, recommended by the Chief of Police as a traffic safety measure. (Continued on page 2)

## CHRISTIAN SCIENCE

The healing power of true prayer will be set forth at Christian Science services Sunday in the Lesson-Sermon entitled "Truth."

Among the scriptural selections to be read is the account of Christ Jesus' healing of the child with the "dumb spirit" including the answer his disciples received to their question as to why they did not cure the child: "And he said unto them, this kind can come forth by nothing, but by prayer and fasting" (Mark 9:29).

The practical power of prayer is also brought out in passages to be read from "Science and Health with Key to Scriptures" by Mary Baker Eddy, including the following (11:27-31): "Prayer cannot change the unalterable Truth, nor can prayer alone give us an understanding of Truth; but prayer, coupled with a fervent habitual desire to know and do the will of God, will bring us into all Truth."

Councilwoman Zahn reported on the proposed Key System rate increases. She stated that there would be a hearing next Monday, July

25, at the Oakland City Council Chamber, and requested that the City of Albany be officially represented at that meeting. City Attorney Foley said he had that date on his calendar, and would be present as "an interested party." Mrs. Zahn said the Key System had made a formal application for a raise in rates all along the line last May, and that the present request was an interim one designed to cover increase in costs, due to high-

### Meet the Wilsons who set up housekeeping in Napa in 1935

20 YEARS AGO—when Earle and Dorothy Wilson were married, they had just five appliances: range, water heater, waffle iron, toaster and iron.

TODAY—their original home, enlarged and modernized, has 27 more appliances, including a gas furnace, refrigerator, washer, dryer, television set, 5 radios, vacuum cleaner, garbage disposer, 2 electric razors, coffee-maker, sandwich grill, mixer, deep fat fryer, sewing machine, vibrator, sun lamp, 3 electric clocks and a well-equipped work shop.

### Today they buy \$15 worth of gas and electricity for \$10

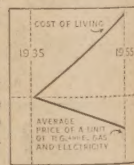

...for the average unit cost is less than in '35

Most Californians—like the Wilsons—have added gas and electric servants over the years. The average California home uses three times as much gas and electricity as twenty years ago. Naturally, your total bill is higher, but the average price of a kilowatt hour of electricity and a cubic foot of gas is about one-third less than in 1935—thanks to mass production economies.

As a result, the Wilson's gas and electric

bill in a recent month was \$10.79. In 1935 the same amount would have cost \$15.65. This same saving will most likely apply to your bill.

Can you think of any other prices that are lower today than 20 years ago? No wonder we say...

Gas and electricity are cheap in California

### Juniors Featured At Sonoma Fair

SANTA ROSA, July 15 — Junior exhibitors will really gather in the cash at the Sonoma County Fair, July 22 through July 30.

More than \$30,000 will be collected by Future Farmers and 4-H Club members for their entries in competition at the fair in Santa Rosa. Of this, \$29,656 is offered for premiums and much more will be paid out for prize beef, lamb and swine at the junior livestock auction which will take place in the arena in front of the grandstand on Friday night, July 29.

Total premium payments, exclusive of horse shows and rodeo shows at the Sonoma County Fair this year will be \$77,311. Offered for racing purses will be \$75,400.

Poverty is no disgrace to a man but it is confoundingly inconvenient.—Sidney Smith.
